TS ODBC DataServer™ 8.7.0

NOTE: The 8.7.0 release for all Thoroughbred Window based products cannot be treated as upgrades. The 8.7.0 release cannot be combined with other versions. All products must first be uninstalled and then the 8.7.0 release installed. Before continuing with this installation, please see the *Uninstalling* section of this manual for instructions to properly prepare your system for the 8.7.0 installation.
